

Be our guest ... and attend this live, satellite broadcast from Trane

Small Chilled-Water Systems Part 2

when

September 10, 2008

11:30 - Lunch

12:00-1:30 -Broadcast

where

**Brady Trane Sales
Training Center
1916 Church Street
Greensboro, NC 27405**

Use training center entrance

Over 80% of new U.S. buildings are less than 25,000 square feet and almost all buildings are less than 200,000 square feet. This ENL broadcast will identify challenges and opportunities for chilled-water systems in these buildings from 20 to 500 tons.

Systems Engineer Lee Cline and Applications Engineer Susanna Hanson will be joined by chiller product expert Todd Duncan to discuss small system design and operation opportunities. This broadcast will be an in-depth continuation of the 2004 ENL broadcast *Small Chilled-Water Systems: Design and Application*. A review of the 2004 broadcast is recommended. An [on-demand](#) link can be found on Trane.com on the [Engineers Newsletter LIVE](#) page.

Why should you attend this live satellite forum?

- **Energy costs are going up.** Proper design and integrated controls deliver small system efficiency and sustainable operation.
- **Today's buildings and owners are more sophisticated.** Knowing how a small chilled-water plant is designed and how it should operate unlocks the long-term advantages of the investment in a chilled-water system.
- **Three major Trane chiller offerings debut in 2008-09.** New products from Trane have enhanced system application support.

What can you expect to learn from this broadcast?

- **More options in small chilled water systems**
- **What's possible?** Implications of system choices and chiller types.
- **What's practical?** We will explore system strategies such as variable-primary flow, heating with chillers, and thermal storage.
- **How can Trane help?** This broadcast coincides with an update to the application manual "Multiple Chiller System Design and Control" and an Engineer's Newsletter on waterside economizing.

How do you register for this event?

- Complete the form provided below.
- Contact your Trane sales office with this information.
- Registration deadline: **September 2, 2008**

To register: call **336-378-0670**, or fax this form to **336-274-7487**, or e-mail this information to bfsmith@trane.com

Yes! I plan to attend!
