

Mechanical Services

Brady is a skilled mechanical company that can provide a full range of mechanical and industrial services. Our team is experienced in a variety of installations.

Efficient Service: Because we specialize in the installation of chillers, cooling towers and packaged HVAC systems, we work closely with equipment engineers so everything is installed within specifications.

Commitment to Quality: Highly qualified associates make your installation quick and trouble-free. All of our welders are ASME certified. Our mechanics are experienced with the most complex installations.

Retrofit Services: We offer a variety of services on HVAC Equipment from changing old equipment to designing your new layout for comfort or process cooling and heating for the facility. Our retrofit services team is composed of engineers, designers, project managers, sales and estimators.

We have experience installing:

Air Handler Package Units:

- Roof top package units from 3 to 130 tons
- Split systems from 1/2 to 120 tons
- PoolPak
- Self contained units
- VAV systems
- Adaptor curbs unit change outs
- Package units with ductwork
- Climate changers
- Gas fired units
- Make-up air units
- Air rotation units

Pumps:

- Chilled water
- Condensed water
- Process
- In-line

Chillers:

- Water cooled
- Air cooled
- Process
- Comfort
- Heat Exchanger

Cooling Towers:

- Induced draft
- Counter flow
- Cross flow Induced
- Closed circuit
- Evaporative condensers

Piping:

- Chilled water
- Cooling tower
- Steam
- Condensing water
- Boiler feed
- Gas
- Hot water
- Refrigerant
- Hot oil
- Jacket
- Chemical

Our boiler and burner services include:

- Heating or process
- Cast iron sectionals
- Scotch marine
- Hot water package
- Hot oil boilers
- Water tube boilers
- Fire tube boilers
- Vertical boilers
- Electric boilers
- Weishaupt burners
- Deaerator tanks
- Heat recovery units
- Buderus high efficiency boilers
- Water treatment

Custom made skid packages are available and can be designed and built around your equipment.

Down time on a production line is not a problem.... we can design and build a skid package system for your chiller, pumps, storage tanks and electrical systems.
