

COVID-19 RESPONSE PLAN

On Monday, May 11th, our six Brady Parts locations will be reopening their showroom doors and modifying their business operations to continue to help slow the spread of COVID-19.

As a precaution, we will have clearly marked customer pathways in each store to aid in the flow of traffic. We have implemented rigorous cleaning procedures based off of CDC's guidelines, and will make adjustments as necessary to keep our customers and associates safe.

We appreciate your efforts to practice social distancing and ask for your assistance in allowing us to serve all of our customers by spending only the time needed to conduct business in our stores.

We will still be offering curbside pickup and factory direct drop shipments as requested by calling any of the numbers below.

You should not notice a change in your ability to reach us, your ability to pick up orders, or your ability to service your clients. The health and well-being of our customers, associates, and our community remains one of Brady's core values.

We are here for you. Please let us know how we can better serve you during this time.
