

Brady is pleased to announce that it has entered into a relationship with Chemsearch FE, a division of NCH Corporation, to provide best-in-class water treatment solutions to your facility. This change went into effect on February 1, 2022.

Brady will continue to provide all contracted mechanical, boiler, building automation, and security services outlined in your existing service agreement. Chemsearch FE will assume water testing, service, chemical inventory and equipment.

You will continue to be invoiced by and remit to Brady for your water treatment services through the end of the contract term. After your water treatment service program with Brady concludes, Chemsearch FE will meet with you to determine your ongoing water treatment service program needs.

## TOTAL SYSTEMS APPROACH

**Chemsearch FE provides comprehensive water treatment solutions that help protect your critical water systems, promote safe and reliable equipment operation, and reduce the total cost of operation.**

*Chemsearch FE has the expertise and commitment to help you solve virtually any water-related problem. Our Total Systems Approach allows us to provide effective product, equipment, and service solutions that address the unique mechanical, chemical, and people requirements of each system.*
